SNSB Staatliche Naturwissenschaftliche Sammlungen Bayerns

SNSB Bayerische Staatssammlung für Paläontologie und Geologie

The Bavarian Natural History Collections (SNSB, www.snsb.de) are a non-university research and educational institution with six state natural history collections in the fields of zoology, botany, geology and palaeontology, mineralogy, anthropology and palaeoanatomy, as well as eight museums in Munich, Bamberg, Bayreuth, Eichstätt and Nördlingen and the Botanical Garden Munich, with a total of approx. 280 employees.

We are looking as early as possible for a

Scientific Conservator (f/m/d)
at the Bavarian State Collections of Palaeontology and Geology (BSPG) for the collection area Evertebrates (Invertebrates) or Microfossils
in full-time, permanent position

Tasks:

- Preserving, recording, cataloguing and expanding the collection items in care of the BSPG.
- Research in the context of the SNSB's main research areas - Alpine systems and biosphere change - in the fields of palaeobiology and palaeobiodiversity research (e.g., taxonomy, phylogeny). The application of modern research methods and bridging to the research activities at the Chair of Palaeontology and Geobiology at LMU Munich is desired (www.lmu.de/palaeo).
- Collaboration in the management of collection data, service tasks in the field of public relations, expert information, cooperation with volunteer palaeontologists and nature conservation authorities.
- Maintaining and intensifying relationships with research collections worldwide (including exchange relationships).

Prerequisite qualifications:

- Completed qualifying university studies, doctorate in the field of geosciences or biology.
- Broad knowledge of systematics and palaeobiology of invertebrates and/or microfossils.

- Independent research profile with excellent international publication record in the field of invertebrates or micropalaeontology, preferably in the area of research focus of the SNSB and/or Chair of Palaeontology and Geobiology at LMU Munich.
- Experience in public and educational work, science communication.
- Involvement in societies and projects associated with the house.
- Ability to communicate and work in a team.
- Ability to express yourself verbally and in writing (German and English; we expect a good knowledge of German or the willingness to acquire it).

Desirable skills:

- Experience in project organisation and supervision.
- Acquiring third-party funding
- Creativity and willingness to experiment.
- Analytical and management skills.

We offer:

- an interesting and varied job in the public sector in the centre of Munich, as well as all the advantages of employment in the public service of the Free State of Bavaria
- a stimulating international working environment in one of the largest palaeontological collections in Germany and the Palaeontological Museum Munich, which offers a close relationship to the public due to a very high visitor resonance
- a large, motivated team with the overarching goal of communicating science in a lively way and making it accessible to everyone
- a diverse research environment with a wide range of competences and opportunities for cooperation in the SNSB
- remuneration will be in accordance with the Bavarian Salary Act (BayBesG) if the civil service requirements are met.

We look forward to receiving your informative and complete application documents with a letter of motivation (incl. details of the medium-term research concept and experience/concepts in the field of public relations), curriculum vitae (incl. list of publications, third-party funding, teaching experience) and references as a PDF file by **15.01.2022** at the latest at

personal@snsb.de.

For questions regarding content, please contact the Director of the BSPG, Prof. Dr. Gert Wörheide (woerheide@snsb.de). If you have any questions about the procedure or application process, please contact Susann Windisch (personal@snsb.de).

Severely disabled applicants will be given preference if their suitability is otherwise essentially equal. In order to achieve equality between women and men, there is a particular interest in applications from women.

The position can be filled on a part-time basis, provided that job-sharing ensures that the position can be filled on a full-time basis.

Please note that application documents will be destroyed and not returned after the procedure has been completed. Travel expenses for a possible interview will not be covered.
