

The *Biodiversity and Climate Research Centre* (BiK-F) is a new interdisciplinary institute with the mission to carry out internationally outstanding research on the interactions of biodiversity and climate change on the organism level. It has been founded by the Senckenberg Gesellschaft fuer Naturforschung, the Goethe-University Frankfurt am Main, and others partners. The Centre is funded by the Federal State of Hesse through its Initiative for the Development of Scientific and Economic Excellence (LOEWE). It provides a new, dynamic research environment that integrates a variety of disciplines from both natural and social sciences. The Project Area B "Biodiversity Dynamics and Climate" invites applications for the position of a

**Postdoctoral Researcher "Macroecology "**  
**Project B2.11 [Ref. #B20]**

The successful applicant will investigate the impact of climatic factors and/or land-use on the macroecology of vertebrates. The focus will be on the macroecological and/or macroevolutionary analysis of the ecological niches and geographic ranges of vertebrates. More specific topics could be the impact of climate and land-use change on the ranges of large mammals, the macroevolution of climatic niches in birds or the inclusion of dispersal or biotic interactions in species distribution models of vertebrates. The taxonomic focus should be on birds or large mammals.

The applicant should hold a Ph.D. in ecology or a related field, and have a strong background in macroecological or macroevolutionary analyses of large data sets, advanced statistical analyses (e.g. species distribution modeling) and an interest in birds or mammals. He or she is expected to develop joint research projects, to write funding proposals, to engage in the supervision of Ph.D. and masters students, and to contribute to teaching. A solid publication record, good written and oral communication skills, and the willingness to develop collaborations within the working group and the center as a whole are required.

Salary and benefits are according to a public service position in Germany (TV-H E 13).

The Research Centre BiK-F advocates gender equality. Women are therefore strongly encouraged to apply. Equally qualified severely handicapped applicants will be given preference.

The contract shall start as soon as possible and will initially be restricted to 3 years. Extension to further 3 years is possible subject to positive performance. The duty station will be Frankfurt am Main, Germany. The employer is the SENCKENBERG GESELLSCHAFT FUER NATURFORSCHUNG.

Please send your application by e-mail attachment, mentioning the reference of this position (#B20) and including a letter outlining your suitability for the post, a detailed CV, contact details of 2 referees and a selection of your most important publications before May 30th to:

Prof. Dr. Dr. h.c. V. Mosbrugger, Scientific Coordinator Biodiversity and Climate Research Centre, Senckenberganlage 25, D-60325 Frankfurt am Main, Germany. E-mail to Service and Finances: [recruiting@senckenberg.de](mailto:recruiting@senckenberg.de). For scientific enquiries please write to Prof. Dr. K. Böhning-Gaese (e-mail: [katrin.boehning-gaese@senckenberg.de](mailto:katrin.boehning-gaese@senckenberg.de)).
