

The Department of General Pediatrics at the University Hospital Muenster, Germany, is seeking to fill the position of a

**Doctoral Research Associate**  
**(Wissenschaftliche\*r Mitarbeiter\*in)**  
**(followship equivalent to salary level TV-L E 13, 50%)**

commencing as soon as possible. We are offering a part-time position (50% FTE) for 3 years.

**Your tasks:**

- investigating and developing mRNA-based therapies for Cystic Fibrosis
- collaboration in research and teaching
- undertaking independent research

This position is tied to working towards a doctorate.

**Our expectations:**

- A master's degree in biology or related fields, with a focus on cell biology.
- Experience using general laboratory techniques (cell culture techniques, molecular biology) is desirable but not required.
- Experience working with human cells is desirable.
- A background in human physiology is preferable.
- Good command of written and spoken English is required.
- Good command of written and spoken German is advantageous.

The University of Münster strongly supports equal opportunity and diversity. We welcome all applicants regardless of sex, nationality, ethnic or social background, religion or worldview, disability, age, sexual orientation or gender identity. We are committed to creating family-friendly working conditions.

Applications should include a cover letter, a CV, copies of degree certificates and transcripts, and contact details for two referees, all combined into a single PDF (max. 10 MB).

Please note that we cannot consider other file formats.
